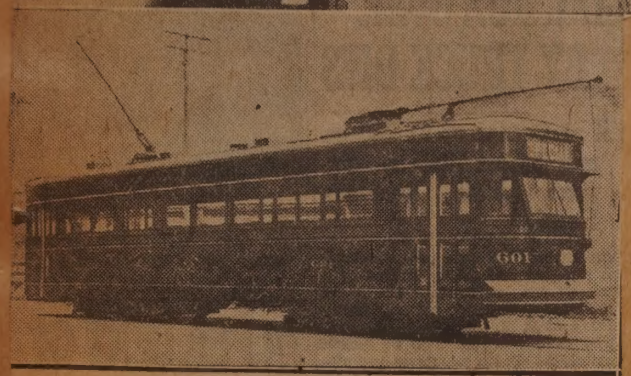
FIRST OF NEW STREET CARS TO REACH HERE



FOR PURCHASE STREET LINE Nov. 2, 1929

Four new cars of a total of 12 to be delivered to the Union Street Railway company arrived here today to be placed eventually on the main Purchase street line of the company. These cars were built by the Osgood Bradley Car company, Worcester, and are designed for operation by either two men or one man. They seat 44 passengers comfortably. While they are rugged in construction, built of steel, they are comparatively light in weight, weighing 34,000 pounds. They are a car designed for quick acceleration, enabling the operator to get them quic underway after stops.

UNIVERSALIST CHURCH NOW FAMOUS

STANDING NEARLY 150 YEARS

THE OLD HATHAWAY HOUSE

One of the earliest landmarks of this vicinity is the old Hathaway house, pictured here, which stands solid and in good repair at Tarkiln Hill and River roads after nearly a century and a half of exposure. The rwelling was built in 1794 by Humphrey Hathaway. The dwelling later came into possession of his daughter, Mrs. Alice Haskell. Mrs. Haskell was the grandmother of Miss Alice Hathaway Lee, who became the first wife of former President Theodore Roosevelt. When Mr. Roosevelt visited this city April 27, 1912, in connection with his campaign for the presidency, he was taken for a brief visit to the old house. It is now owned by E. C. Morse, Lunds Corner, and is occupied by the families of Raymond Bradshaw and Roy Morse. Nov. 10, 1929

NEW MASTS FOR SCHOONER YACHT PALESTINE

SHOWING ONE OF THE HANDSOME STICKS Nov, 18, 1929

Schooner yacht Palestine, owned by Andrew G. Pierce, is to have new masts. The masts are about 85 feet long and recently came over the road from Boston. These sticks are solid—not built up, as is quite often the case today on spars. They will be set at the Atlas basin when the schooner fits to go into commission in the spring.

The process of making masts for yachts today has undergone a radical change from the process a few years ago. Then plenty of spruce sticks were turned out in spar yards. Now many of the larger masts are hollow. In the case of the Palestine's new masts, which are to replace the old spars removed from the yacht when she hauled into winter quarters at Peirce & Kilburn's, the sticks are Oregon fir and were made by the Pigeon Hollow Spar Co., in East Boston.

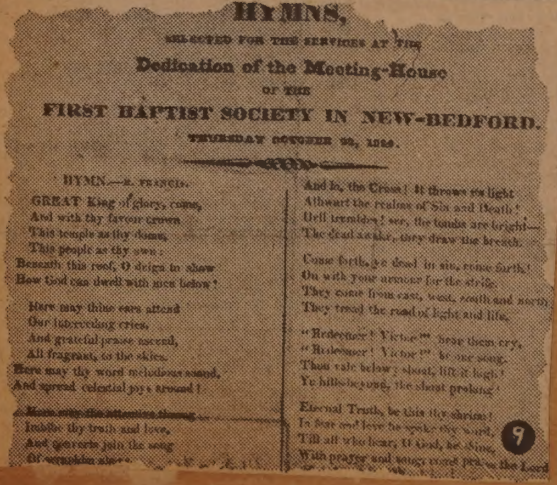
IAS 100TH BIRTHDAY

sage of Men and Time



HYMNS,

SELECTED FOR THE SERVICES AT THE

Dedication of the Meeting-House

OF THE

FIRST BAPTIST SOCIETY IN NEW-BEDFORD.

THURSDAY OCTOBER 22, 1829.

HYMN.—L. PEACOCK.

GREAT King of glory, come,
And with thy favour crown
This temple as thy home,
This people as thy own:
Beneath this roof, O deign to show
How God can dwell with men below!

Here may thine ears attend
Our interceding cries,
And grateful praise ascend,
All fragrant, to the skies.
Here may thy word melodious sound,
And spread celestial joys around!

Here may thy ministers display
Inside thy truth and love,
And converts join the song
Of wonders above.

And lo, the Cross! it throws its light
Athwart the realms of Sin and Death!
Hell trembles! see, the tombs are bright—
The dead awake, they draw the breath.

Come forth, ye dead in sin, come forth!
On with your armour for the strife.
They come from east, west, south and north,
They tread the road of light and life.

"Redeemer! Victor!" hear them cry,
"Redeemer! Victor!" be our song.
Thus vale below; shout, lift it high!
Ye hills beyond, the shout prolong!

Eternal Truth, be this thy shrine!
In Thee our love be spoke, thy word,
Till all who hear, O God, be thine,
With prayer and songs exalt [illegible] the Lord.

Sturdy Figures in First Baptist History

Figures of past and present will play a part in the 100th anniversary of the building of First Baptist church exercises at the church Oct. 22. Shown here are: (1) The Rev. Henry B. Williams, present pastor of the church, standing between Mrs. Imogene S. Hatch and Miss Lucretia N. Smith, two of the oldest members. (2) The Rev. Clarence M. Gallup, pastor from 1904 to 1911, now in charge of the Central church, Providence. (3) The Rev John O. Choules, eighth pastor of the church, who ministered here from 1833 to 1838. (4) William E. Carroll, 538 Kempton street, oldest member of the church in point of membership. Miss Smith is second oldest. (5) The Rev. Henry Jackson, who succeeded Mr. Choules and was pastor of the church from 1839 to 1845. (6) The Rev. John Girdwood, pastor from July 11, 1850 to Nov. 1865. (7) Interior of the present church. (8) The First Baptist church as it stands today. (9) Some of the hymns sung at dedication of the church building, Oct. 22, 1829.

Simeon F. Lynch Also Does Landscapes in Oils Sept. 15, 1929

Life-saver, patrolman, artist, are some of the designations that fit Simeon F. Lynch, Buttonwood park policeman. Two of his recent paintings, a sheet of the sort of quick sketches with which he inspires school children who cluster about him at the park, and himself are portrayed above. The landscapes were painted from imagination, and depict no special scenes. Mr Lynch saved a youth from drowning in Buttonwood pond this summer at risk of his own life.

HOUSE TO BE REMOVED

AT 119 ACUSHNET AVENUE Aug 11, 1929

The 2½ story house shown here at 119 Acushnet avenue, situated on the west side of the avenue, just south of Grinnell street, is to be torn down and the debris removed to make it possible to extend the present area of the playground about the Acushnet Avenue school. The City council committee on city property named John J. Anderton auctioneer to sell the building, and the plan is to have the building out of the way and the lot cleaned up before the opening of the public schools in September. The city entered into negotiations to buy this property during the administration of Mayor Edward R. Hathaway, but since the order for the purchase of this property was lumped with that for the purchase of the Caswell property on Purchase street as a Vocational school site, an order that was found to be illegal by the courts, negotiations were later carried out by the administration of Mayor Ashley.

HEAD AIRPORT DEVELOPMENT

Nov. 24, 1929

ISAAC DAWSON. DAVID S. SHER.

Mr. Dawson is president and treasurer of the recently formed Sound Airways, Inc., which late this week purchased the 90-acre Duff field, East Fairhaven, for development as an airport. Mr. Sher will be general manager of the airport, occupancy of which has already been established. The purchase included tractors and other equipment for maintaining the field which has been called the best natural airport in New England. Both men are well known here. Mr. Sher, for a long time a leader in the aviation field here, is New Bedford's first airplane dealer. He is also Oldsmobile-Viking and Gardner dealer for New Bedford and vicinity.

BEES TRY ESCAPE BUT FAIL

Sept. 26, '29

EDWARD KINCAIDE WITH 20,000 STINGERS

COVER IS LOOSENED FROM 20,000 BEES; ONLY 50 GET AWAY

Edward Kincaide Escapes Injury When Placing Comb in Window

Twenty thousand honeybees made a break for liberty Wednesday when the cover of a quarter colony comb which Edward Kincaide was placing in the show window of the Lorraine Tea and Coffee store at 1110 Acushnet avenue came off.

Fifty bees escaped into the enclosed showcase. Mr. Kincaide rapped the cover shut again, brushed off a number of insects crawling over his face and hands, and swiftly departed for the rear of the store. He was not stung.

Assisted by Samuel Shuster from a meat market across the street, and Leo Bissette, clerk in a neighboring drug store, Mr. Kincaide returned to the skirmish armed with an insecticide spray, and after considerable excitement the escaped bees were killed, while those still in the comb settled down before the eyes of interested spectators outside on the sidewalk.

The comb was lent to the store by E. W. Goodhue, East Freetown, Wednesday morning, to serve as a display. Mr. Goodhue placed the receptacle, measuring about two feet by three, on the counter and its cover was loosened just as Mr. Kincaide was placing the comb in a space cleared for it in the window.

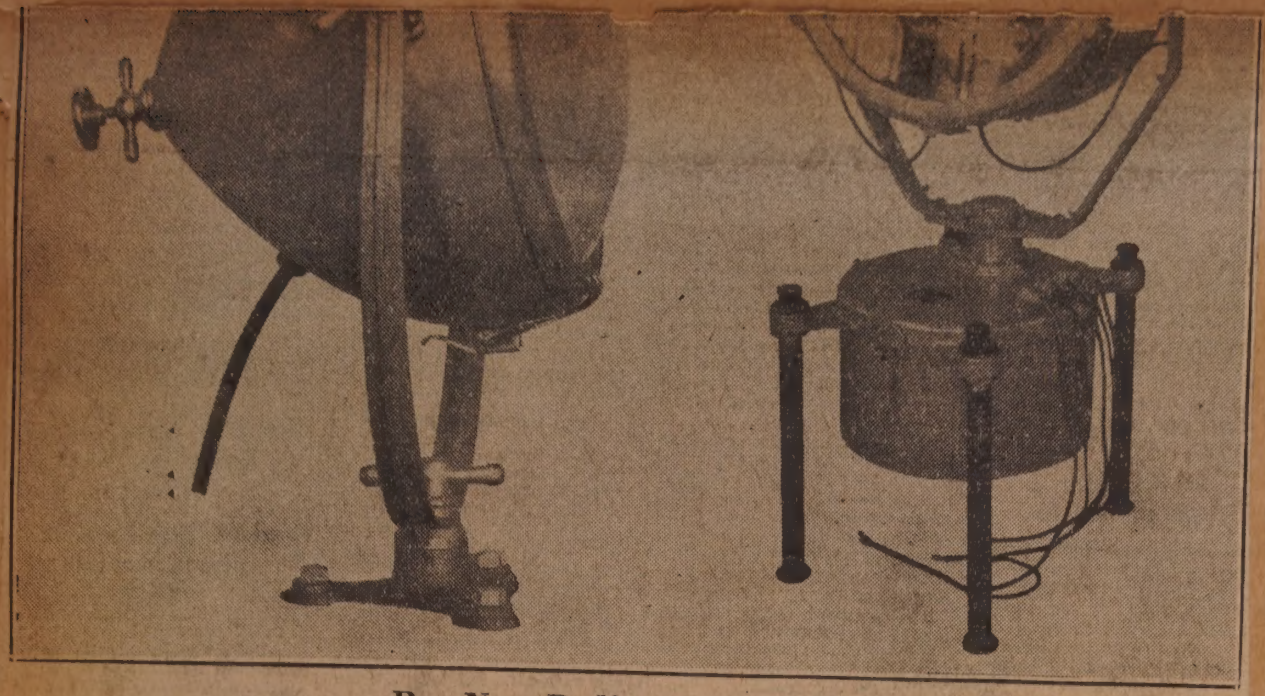
Arrows and dotted line show the position of girders in the seaplane hangar on the estate of Colonel E. H. R. Green before they buckled and crashed to the ground. Crosses show where the men were working when they fell, and the figures how they dropped.



Put New Bedford on Air Map

The electric lighting equipment which Col. E. H. R. Green is installing at his Round Hills Airport is in some ways the most powerful and complete in America today. When completed the installation which is being supervised by John Newington will make the Round Hill station a point of special brilliance which will be a landmark for night flyers anywhere in New England. Upper picture shows a view of the Novalux Airport Floodlight which arrived at Round Hills a few days ago and was uncrated at the close of the week. This light is of 5,000,000 beam candle power brilliancy, and when turned on will light the whole of the big landing field, which is 3,700 feet long and 400 feet wide. Below at the right is an automatic revolving airway beacon which revolves by clockwork, throwing a beam far into the air which can be seen at night for miles. At the left is one of the four Novalux floodlighting projectors which will surround the airway beacon and will flash the station signal R. H. at frequent intervals by Morse Code.

COMMUNITY SING MAKES HIT AT PAGE MILL

Novelty Races Follow Clambake Served by Charles A. McAvoy

Novelty races followed a clambake attended by more than 600 employes and officials of the Page Manufacturing company at the mill's annual outing held yesterday afternoon at Perry's grove. Displaying a repertoire of unlimited scope, Edward McKeon, Fall River, was a big center of attraction as his portable organ during the afternoon. He led the crowd in community singing and rendered comical ditties. He is shown above at the left surrounded by fair choristers. The photograph at the upper right shows the committee with officials of the mill. Those in the picture are, seated, left to right: Manuel Caton, William Smith, Miss Agnes Belliveau, Mrs. D. Pollock, W. A. Swan, assistant treasurer of the mill; Miss Alice Hodson, Mrs. Henry Viens, Miss Thora Brownhill, Walter Modesto, and Miss Liana Despres. Kneeling, left to right, are: Anthony Head, Joseph Marshall, Arthur D. Wood, Harry Wilkinson, Mrs. Frances Carr, Francis O. McDevitt, treasurer of the Page; Miss Frances Foy, Owen Downhill, John E. Brown, Matthew Souza, and Joseph Walsh. Standing, James Kenworthy, Charles Joseph, Edward Sylvia, Charles E. Hughes, chairman; Edward Barker, Richard Brownhill, and John Cunha. The outing group is shown in the lower right photograph.

Dartmouth, Hathaway, and Acushnet Mills

August 7, 1929.

This photo shows (1) the Dartmouth, (2) the Hathaway and (3) a part of the Acushnet mills. The Hathaway Manufacturing company was incorporated in 1888 and today has 70,338 spindles, 3,374 looms on fine goods. The Acushnet Mill corporation, incorporated Dec. 22, 1881, has 102,376 spindles and 3,527 looms on sateens, twills, shirtings, plain and fancy fine goods, marquisettes, silks and cotton mixtures. One of the most consistently profitable fine goods mills in the country is the Dartmouth Manufacturing corporation, incorporated Aug. 20, 1895, has 170,000 spindles and 5,600 looms, turning out plain, fancy and Jacquard cotton and silk goods. It is the second largest fine goods mill here and, therefore, one of the biggest in the world.

GOLD CUP WINNERS IN RACE HERE

Off Fairhaven Bridge

Sept 5, 1929.

Speedy displacement racers Wilgold III and "Carenaught" came to New Bedford early in August during the power boat regatta here, and staged a special race north of the Fairhaven bridge. These two boats entered the Gold Cup races at Red Bank, N. J., a week ago, being pitted against the fastest craft in the country, including several new boats built especially for the occasion. They outclassed the entire field and ran away with the contest, being more than a mile ahead at the finish. Wilgold III won the cup after Carenaught had upset while rounding a turn.

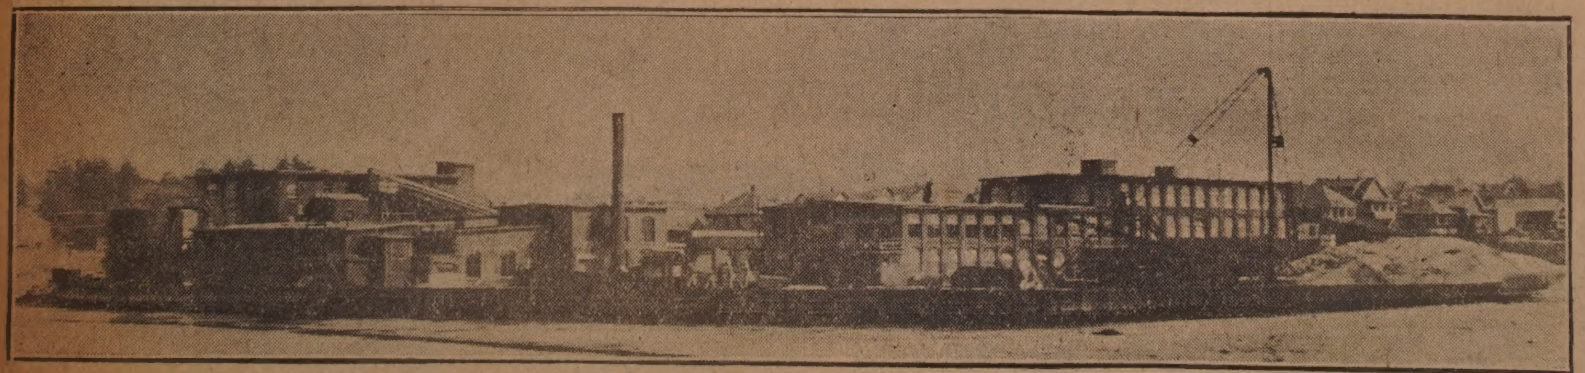
FORMER FAIRHAVEN MILLS. August 7, 1929

The Pemaquid mills occupy the building outlined in this group. The Milan Silk mills is running in another part and yet a third section is occupied by New Bedford's "golden rule" factory, the Lefevre-Oatman Shoe company. The Premier Silk mills is also now a part of the group.

NEW BEDFORD'S ENTRY IN RUBBER MANUFACTURING INDUSTRY



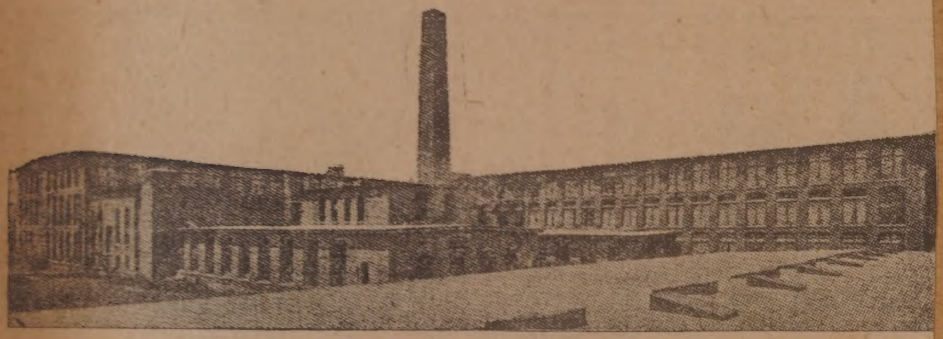
Acushnet Process Company

August 7, 1929.

Manufacturing druggists' rubber sundries as well as processing rubberized tire trimmings on commission, this company has steadily enlarged its plant since 1911 to meet demand for its products.

August 7, 1929

HAS HALVED CAPITAL TWICE IN YEAR



City Manufacturing Corporation August 7, 1929

The City Manufacturing corporation, incorporated in 1888, has within the past 12 months twice halved its capital stock by reducing its par value 50 per cent and paying out the equivalent in cash, so that capitalization now stands at $187,500. The company has real estate, buildings and machinery valued at $1,546,085, according to its latest balance sheet. Its 59,064 spindles here turn out cotton yarns and its 400 looms in Taunton manufacture fine cotton and silk goods. James E. Stanton Jr., is president, John B. Strongman, treasurer and clerk.

PRODUCES WOOD AND MACHINE SCREWS HERE

—Photo taken from New Bedford-Acushnet airport plane.

Continental Wood Screw Company August 7, 1929

Here is the Continental Wood Screw company on Mt. Pleasant street as it looks from many feet above. The plant manufactures wood and machine screws which are shipped all over the United States.

Neild Manufacturing Corporation

August 7, 29

Th Neild Manufacturing corporation, incorporated March 1, 1910, is capitalized at $1,200,000 and has land, buildings and machinery worth, according to its latest balance sheet, $1,697,221. Its 62,600 spindles and 1,600 looms make plain and fancy goods, silk and mercerized specialties. Frank I. Neild is president, Joseph H. Allen, treasurer. The big weave shed is hidden by the spinning mill and office in this photograph.

NOW LINKED WITH AVIATION INDUSTRY

Atlas Tack Company

August 7, 1929.

The Atlas Tack company, Fairhaven, for years famous for its tacks, burrs and metal buttons, has recently begun making aluminum rivets for all-metal airplanes and the small brass wire nails used in fastening fabric to the wings and fuselage of the commoner type of craft.

STUDENT DIES

Aug 8, 1929

JOHN H. TURNER.

Mr. Turner, 19, son of Mr. and Mrs. Amos Turner, 343 Ashley boulevard, died yesterday morning at St. Luke's hospital from peritonitis which followed an operation for ruptured appendix. He had completed his first year at Northeastern university last spring.

HOUSE ONE OF CAPE'S OLDEST

PERRY HEIRS OWN BUILDING

Aug 4 1929

ROOF IS ARCHED ON OLD HOUSE

West Yarmouth Residence, Believed Built 150 Years Ago, Is Cape Landmark

One of the oldest houses on Cape Cod is situated on Main street, in West Yarmouth, about two miles east of the Hyannis railroad station. It was the boyhood home of Eben S. Perry, for many years well known in the real estate business here. The property is now owned by Mr. Perry's children, Mrs. Lucie Perry Paull and Laurence S. Perry, this city.

The house is believed to have been built about 150 years ago. It has been in the family of the present owners for more than 100 years. It came into the family through the marriage of Jabez Perry, father of Eben S. Perry, to Mary Crowell, his second wife, who then owned the house. It remained the property of numerous heirs until 1906, when Eben S. Perry and his son, Everett W. Perry, bought out the other heirs. Many years ago it was known as the Molly Thomas house.

One of the interesting features of the house is the cambered roof. The roof is slightly arched for the better shedding of water.

Where Washington Visited

Times Feb. 23, 1931

The Summerton House, Acushnet, the oldest gambrel roof house in this part of the state and the place which Washington was supposed to have visited during the Revolutionary War. On Washington's birthday, last year, the house was still occupied by Mr. and Mrs. Herbert W. Braley, Acushnet. It belongs to the heirs of Thomas Russell.

Show Made-in-New Bedford Goods Off to Best Advantage

Here is a group of young women in charge of the cotton manufacturers' exhibits at the state armory. Left to right: Millicent Wylie, Neild; Lea Rendeau, Beacon; Elizabeth Seddon, Pemaquid; Ivy Pearson, Gosnold; Mabel Collins, Nashawena; Mabelle Sylvia, Wamsutta; Adelaide Mello, Nashawena; Ruth Daniels, Page; Isabel Perry, Soule; Irene Sullivan, Whitman; Florence Speight, Acushnet; Myra Wilde, Booth; Lena Ennis, Butler.

98

POTOMSKA SECOND OLDEST OF CITY'S COTTON MILLS

—Photo taken from New Bedford-Acushnet airport plane.

Began Operations on Coarse Goods in 1873

August 7, 1929.

The Potomska Mills corporation, incorporated in June, 1871, is capitalized at $1,800,000 and, according to its latest balance sheet, has real estate and machinery worth $1,787,998. Its 104,300 spindles and 2,700 looms make fine lawns, curtain and drapery cloths, broadcloths, ply fabrics and fancy shirtings. John Duff is president, Charles E. Bundy, treasurer and clerk.

LARGEST INDIVIDUAL SPUN SILK PLANT IN COUNTRY

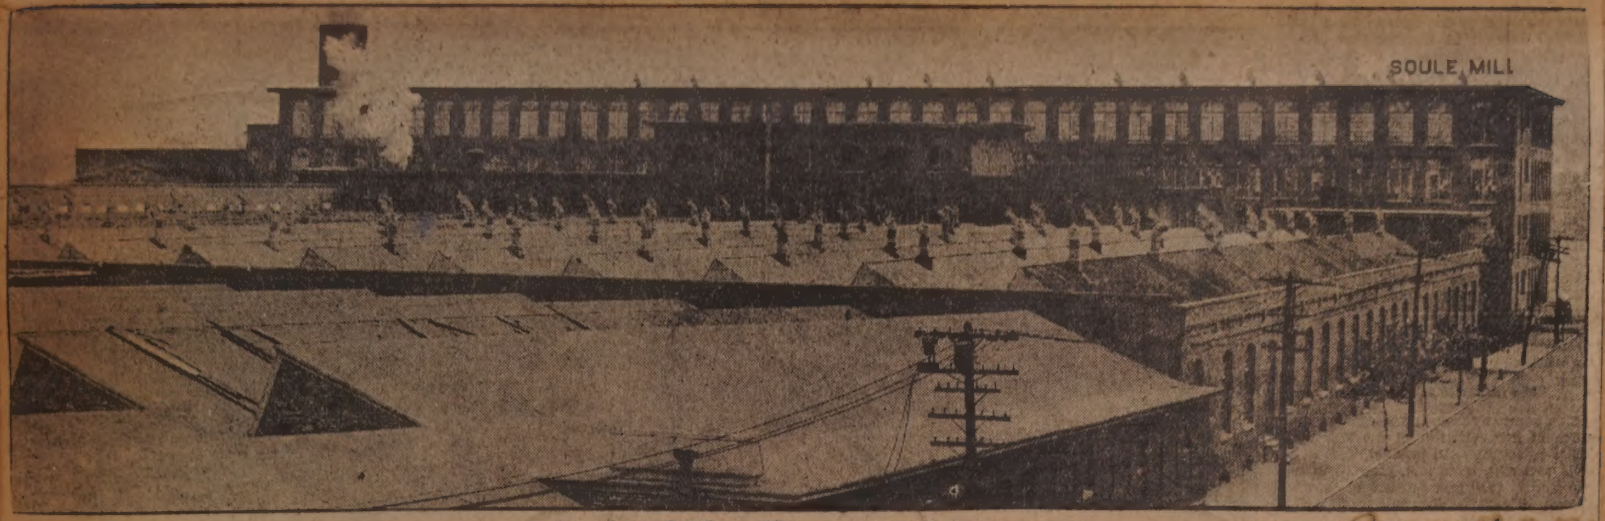
—Photo taken from New Bedford-Acushnet airport plane.

Taber and New Bedford Cotton Also Shown

August 7, 1929.

Largest of spun silk plants in this country, the National Spun Silk company (1), was started here in 1916. The Taber mill is group 2 in this air photograph and a corner of the New Bedford Cotton Mills corporation (3) is also shown. The latter corporation was organized in 1909 and has 73,000 spindles, 1,750 looms on plain and fancy cotton goods; colored yarn shirtings are a specialty. The Taber mill, incorporated April 5, 1905, has 70,700 spindles and 1,700 looms here and 64,600 spindles and 1,362 looms in Taunton making fine cotton goods and yarns.

MAKES PLAIN AND FANCY FINE COTTON GOODS

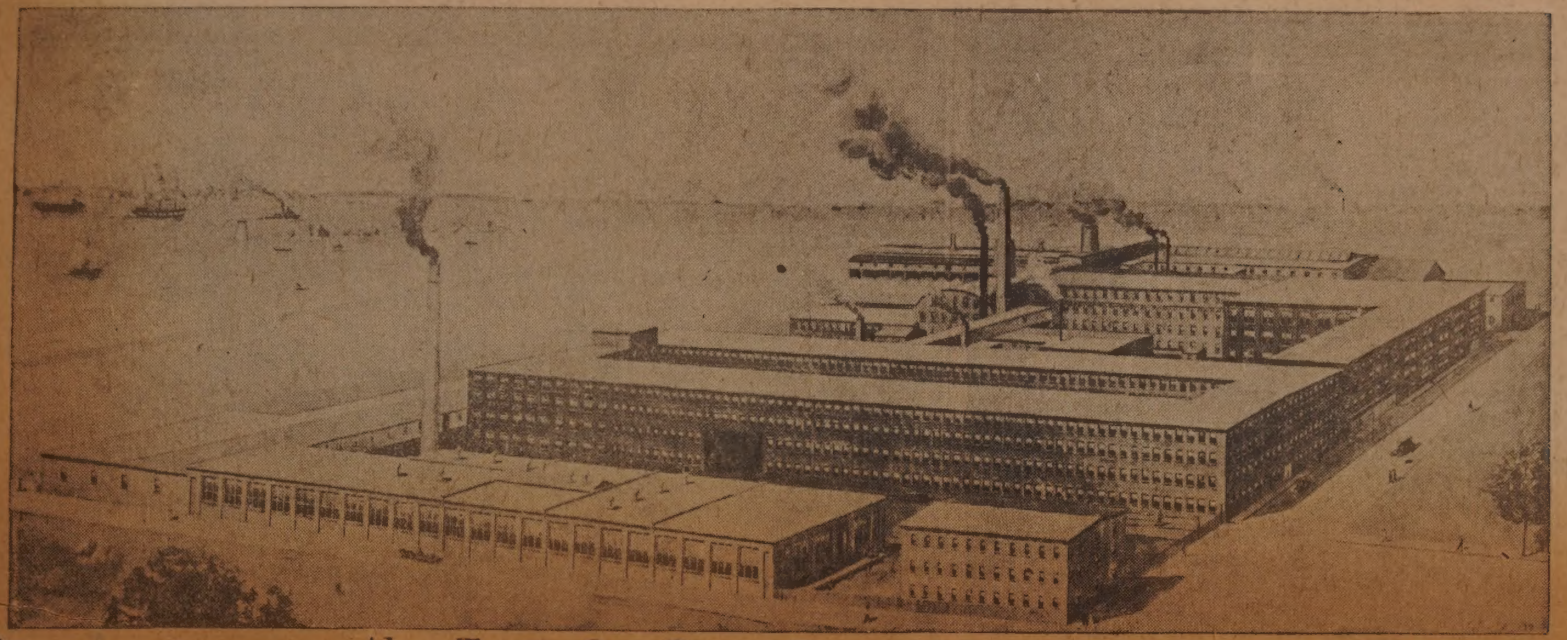


Soule Mill Has 2,300 Looms

August 7, 1929

The Soule mill, incorporated Feb. 1, 1901, is capitalized at $1,260,000 and has real estate and machinery worth, according to its latest balance sheet, $2,079,236. Its 92,000 spindles and 2,300 looms make plain and fancy fine cotton goods, including novelties and handkerchiefs, cotton and silk. John Duff is president, Rufus A. Soule Jr., treasurer, Frederick H McDevitt, agent.

PAIRPOINT MANUFACTURES HIGH GRADE GLASS AND SILVERWARE



Also Turns Out Paper Boxes, Tubes and Cones

Sets Twist in Yarn

Two top pictures are two different views of the new Hygrolit yarn conditioning machine which has created such wide interest among New England cotton manufacturers, and is to be sold throughout New England and New York state by the Marsh-Fallow company of New Bedford. Top picture shows the basket of yarn filled bobbins being dumped onto the aprons which carry the yarn through the four different spraying chambers. Bottom picture is a view of one of the machines set up in a cotton mill, and seen from the delivery end. The treated bobbins of yarn are stored in bins in the foreground. Comparative samples of yarn are shown in two pictures taken against a black background. In each case, yarn treated with Hygrolit is shown beside a sample of the same yarn untreated. The untreated yarn has a kinky appearance which has entirely disappeared in the samples treated with Hygrolit, owing to the effect of the chemical solution in "setting the twist" in the yarn and allowing it to lay smooth.

CATHEDRAL CAMP YOUNGSTERS HAVE FUN IN FREETOWN

Baseball, Riding, Swimming Occupy Youthful Campus

July 24, 1929

Riding ponies, swimming, and playing baseball are the principal amusements for this group of healthy looking youngsters who are enjoying a vacation at Cathedral camp, Freetown. The youngsters in the upper left picture are shown at the height of the bathing hour at Long pond. Boston boys with ukeleles in the upper right picture provide melody at camp. James Magner, head councillor, is at the lower left with a group from the junior baseball team. Campers demonstrate their agility on horseback at the lower right.

RESERVATION GOLF CLUB MEMBERS ENJOY CLAMBAKE

Losing Team Is Host to Winners

Following an annual custom of the Reservation Golf club, winning members of the club team sat down to a clambake at Fort Phoenix, Friday night, furnished by the members of the losing team. It has been the custom in the club for a number of years to have the members divide into two teams for match play. This season the Slicers, captained by Frank C. Brown, won from the Hookers, captained by Neil Fitzgerald, and Friday night the winners and losers to the number of 57 gathered for the clambake. Frank Gilholm, club professional, and Jack Counsell, greens keeper, attended the bake as guests of the club.

FRANK A. MILLIKEN

Judge Milliken will observe his 77th birthday today. After 52 years of service on the bench he will be forced to stay at home on the anniversary as he is recuperating from a serious cold encountered three weeks ago.

He was first appointed special justice in November 30, 1878, by Governor Alexander H. Rice shortly after his graduation from Harvard. On July 29, 1897, he was appointed justice by Governor Roger Wolcott.

By order of his physician the judge has not occupied his usual place on the bench at the Third District court for the past three weeks.

AIRPLANE SOUGHT FOR WOMAN

MARIA DE LOURDES BRAGA TEIXEIRA

O Colonial, New Bedford Portuguese weekly newspaper, has started a campaign to raise funds with which to purchase an airplane for the Portuguese woman aviator, Maria de Lourdes Braga Teixeira. She has learned to fly in Army planes but she is not permitted the use of them now that she has received her license in aviation, and friends feel that she would bring great glory upon Portugal if she had a plane in which to attempt long distance flights. She is the only qualified woman flyer in Portugal. A series of affairs to raise money is being planned by O Colonial. Among other things, it is planned to have a contest among school children to select a name for the plane. Frederic A. Costa and L. de Teixeira, editors of O Colonial are sponsoring the campaign.

RUBBISH AND GARBAGE FEED INCINERATOR

Truck Dumps Load Into Furnace

This photograph, which was taken yesterday, shows one of the new trucks used in the collection of rubbish and garbage as it is ready to drop its load into one of the roaring furnaces at the incineration plant. The photograph illustrates the different kinds of material taken with the garbage. The rubbish acts as fuel, and it is necessary to burn but very little coal at the incineration plant now. For the first time since the plant was built, the floor is free of garbage, all the material being dumped and burned as soon as it reaches the plant. The material is dropped through trap doors to the furnaces below. The new system of joint collections is working well, Austin M. Thresher, superintendent of the plant, said. Some of the collections have been delayed through putting the new system in operation, but Mr. Thresher anticipates that the men will be caught up by the end of the week. Mr. Thresher reiterates that householders must not put non-combustible materials in the rubbish. Ashes, tin cans, bottles and such materials which will not burn must be kept separate.

MAKING READY FOR SUMMER CAMP

New Bedford Boys Club Dining Hall

In these pictures the dining hall under construction at the New Bedford Boys club summer camp on Blackmores pond, South Wareham, is seen. The construction of the building, 45 feet long and 21 feet wide, is being done by members of the New Bedford Vocational school under the direction of Sterling Wilson, instructor. The hall will have a large kitchen at the further end and will also be screened in and have shutters which will allow the building to be used during the winter. In the upper and middle photographs the sizes of the building can be readily seen. In the lower photograph the construction of the fireplace is shown. More than 200 boys are expected to be accommodated in this building during the eight weeks of the camp season this year. Merle L. Ames is in charge of the camp.

Associated Gas and Electric System

Oct. 20 1929

The map here traces the lines and producing units of the Associated Gas and Electric system of which the New Bedford Gas and Edison Light company has become a part through the sale of a majority of its stock to the New England Gas and Electric association. Two of the latter organization's producing units are shown in the photographs; left, an airplane view of Cambridge, showing, in the center, the Cambridge Electric Light company plant, and, right, the Cambridge Gas company plant at Kendall square, Cambridge.

ROBOT GUIDES PLANE TO ROUND HILL

Nov. 8, 1929

Mechanical Pilot Is Tested

A successful demonstration of the efficiency of a robot pilot was recently made in a flight from New York to Colonel Green's airport at Round Hill. The robot keeps a plane flying straight and true to its course with no attention from the pilot at the controls. The device, weighing 50 pounds is a compact affair and consists of two gyroscopes, one vertical and one horizontal. By automatic contacts, it brings the plane back to level flights and points it again on its course when disturbed by the wind, passing gusts or downward air currents. Photograph shows the men who directed a flight to Washington: Major Golkeson, chief of equipment branch of the U. S. Air Corps; Elmer Sperry Jr., manufacturer of the device; Captain Shires Blair, one of the developers of the device, and Lieutenant Albert Hegenberger, who co-operated in the development of the device.
